

Advancing Digital Government with VMware

As more federal agencies are looking to embrace a digital government transformation, VMware, alongside of Presidio Federal, offers groundbreaking software solutions that enable users to adopt an e-governance approach to their operations.

Our solution-based approaches help users address cyber security threats and the need for robust and reliable digital government operations. Federal agencies benefit from the improved performance, increase in mission productivity, and streamlined compliance and cyber security offered by VMware's network, cloud, and workstation platforms.

Together, Presidio Federal and VMware offer a variety of secure and seamless solutions that empower modernization and digital government transformation in the federal industry.

Presidio Federal/VMware solutions can be used to help agencies achieve their mandated objectives as part of a national digital transformation strategy such as Cloud First or the Datacenter Modernization Act. We assist federal agencies with modernization, improving security, and managing digital workplace for remote employees.

Presidio Federal/VMware solutions help federal agencies:

Replace legacy IT with **consistent and secure infrastructure.**

Migrate to public cloud using **common infrastructure** to support data center **consolidation, disaster recovery, and IT service delivery goals.**

Manage multiple clouds seamlessly with the freedom to build, deploy, and run applications on the cloud best suited to each need.

Build and manage containers and microservices, giving developers the resources to **drive continuous innovation.**

Embed traditional networking functions and security policies to enable a least-privilege security model for workloads, **preventing threats from moving within agency environments.**

Empower a **mobile government workforce** and enable workers to enjoy the freedom and flexibility to **work from anywhere at any time.**

Replace **static computing environments** to improve workstation performance, availability, and security while transforming desktops into **stateless digital workspaces** delivered on demand.

ABOUT PRESIDIO FEDERAL

Presidio Government Solutions LLC, branded as Presidio Federal, is an IT services and solutions provider focused on mission outcomes. Our comprehensive solutions for federal government agencies consider their mission and support their mandated need to modernize. While securely collaborating with our technology partners we ensure that agencies can harness technology advances, simplify IT complexity and optimize their environments. We do this while also enabling future applications, effective user experiences, new revenue opportunities, continuous improvements, and ongoing support.
